

## 15% off Cayman Chemicals

Cayman Chemical manufactures and supplies a wide range of biochemicals, assay kits, antibodies, and proteins that support scientists in many lines of research.

Save 15% on all products from Cayman until end of June!

Use promo code: *Cayman2022-Q2*

## Save 20% on CUT & RUN Assay Kits from Cell Signaling Technology

The kits enable a faster, more cost-effective alternative to ChIP-qPCR and ChIP-seq and require fewer cells to investigate protein-DNA interactions

Use promo code: *CST2022-Q2*

## 20% off selected immunofluorescence products

Optimise your immunofluorescence stainings ready for the next publication!

Vector Laboratories provides kits to reduce background fluorescence and mounting media to reduce fluorescent fading and photobleaching.

Product	Size	Special offer
TrueVIEW Autofluorescence Quenching kits	1 Kit, with or w/o DAPI	20% off
